RE: Go Green Team Membership
DATE: February 3, 2022

With the adoption of Resolution #22-52 Establishing the Story County Climate Resilience Leadership Strategy on February 1, 2022, the Board of Supervisors addressed the reactivation of the Go Green Team.

BE IT FURTHER RESOLVED that the Board of Supervisors reactivates the Go Green Team herein after referred to as the Team to provide input and assistance in ascertaining current levels of greenhouse gas emissions present in Story County government operations with the Team consisting of designees from County offices and departments and technical assistance provided by staff from the Board of Supervisors office

The Go Green Team was initially established in 2008 by the Board of Supervisors to assist with the implementation of *Our Green Tomorrow*, a strategic plan to prioritize potential green activities and practices for Story County. At that time, the goals of the Go Green Plan guiding the Go Green Team included:

- reviewing internal operations impacting the County's triple bottom line (environment, economy/budget, and employees/society);
- evaluating the impact of policies on the green goals of Story County; and
- creating a sense of commitment and common understanding of green actions among all levels of employees.

The reactivate Go Green Team will revisit these goals and also work with the University of Northern Iowa Center for Energy and Environmental Education in completing GHG emissions inventories for county government operations for the calendar years 2010 and 2020.

The following individuals have been identified as potential members of the Go Green Team:
